ESA/PB-EO(2023)9  
Att.: Annex 1  
Paris, 30 January 2023  
(Original: English)

EUROPEAN SPACE AGENCY

EARTH OBSERVATION PROGRAMME BOARD

Earth Observation Envelope Programme

FutureEO-1 Segment 2 – Development and Exploitation Component

Work Plan for 2023

## Summary

In accordance with the procedure outlined in the Programme Implementing Rules, the Executive is tabling for approval a draft work plan for the activities to be carried out in 2023 under the Development and Exploitation (D&E) component of FutureEO-1 Segment 2.

The present version takes into account the FutureEO-1 Segment 2 Implementation Plan (ESA/PB-EO(2023)7).

## Required Action

1. DOSTAG is invited to review the attached FutureEO-1 Segment 2 D&E work plan for 2023, specifically its scientific, technical and operational aspects.
2. In PB-EO, Participating States to the second segment of FutureEO-1 are invited to approve the draft FutureEO-1 Segment 2 D&E work plan for 2023.

## Majority required and Voting Rights

Simple majority of the Participants to FutureEO-1 Segment 2 (AT, BE, CZ, DK, EE, FI, FR, DE, GR, HU, IE, IT, LU, NL, NO, PL, PT, RO, ES, SE, CH, UK, CA, LT, SK and SI), representing at least half of the contributions to the segment.

## Legal Basis

- Article 2 c) of the implementing rules (ESA/C/CXL/Rules 1, rev. 5)
- DOSTAG ToR, bullet e), ESA/PB-EO(2010)129
- PB-EO ToR, bullet 1, ESA/C(98)41
- Act in Council on the Introduction of Weighted Vote in Agency's Optional Programmes" (ESA/C/CCXXIX/Act 1 (Final), attached to ESA/C(2012)102)

# Activitati Stiintifice

**Comunicare cu  
comunitatea**

**Noi metode/produse  
si algoritmi**

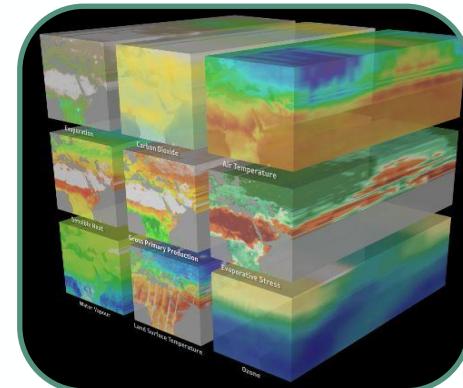

**Dezvoltarea stiintifica a  
Sistemului Pamant**

**Campanii  
Stiintifice**

**Educatie**

**Open Science  
Metodologii/algoritmi**

**Parteneriate**

**Transferul catre noile  
misiuni satelitare**

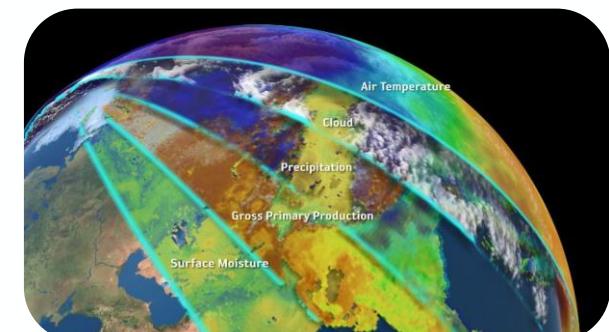

**Clustere Stiintifice ESA ([ESA Science Clusters](#)), o initiative a comunitatii stiintifice pentru dezvoltarea de noi produse, metodologii in anumite domenii**

**Initiativa comună ESA-CE ([Earth System Science Initiative](#)) menita sa aduca impreuna resursele Horizon Europe si Future EO in proiectele pentru cercetarea pamantului sub forma unor directii punctuale, flagship**

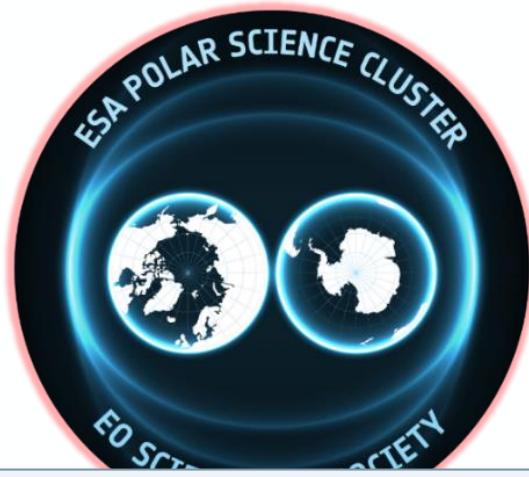

**Hub Stiintific ESA Science Hub o noua facilitate in ESRIN pentru promovarea parteneriatelor si colaborarii cu ESA sau alte institutii**

**Devoltarea Digital Twin Earth si [Destination Earth](#); reconstructia digitala a sistemului Pamant si o mai buna intelegera a fenomenelor climatice dar nu numai**

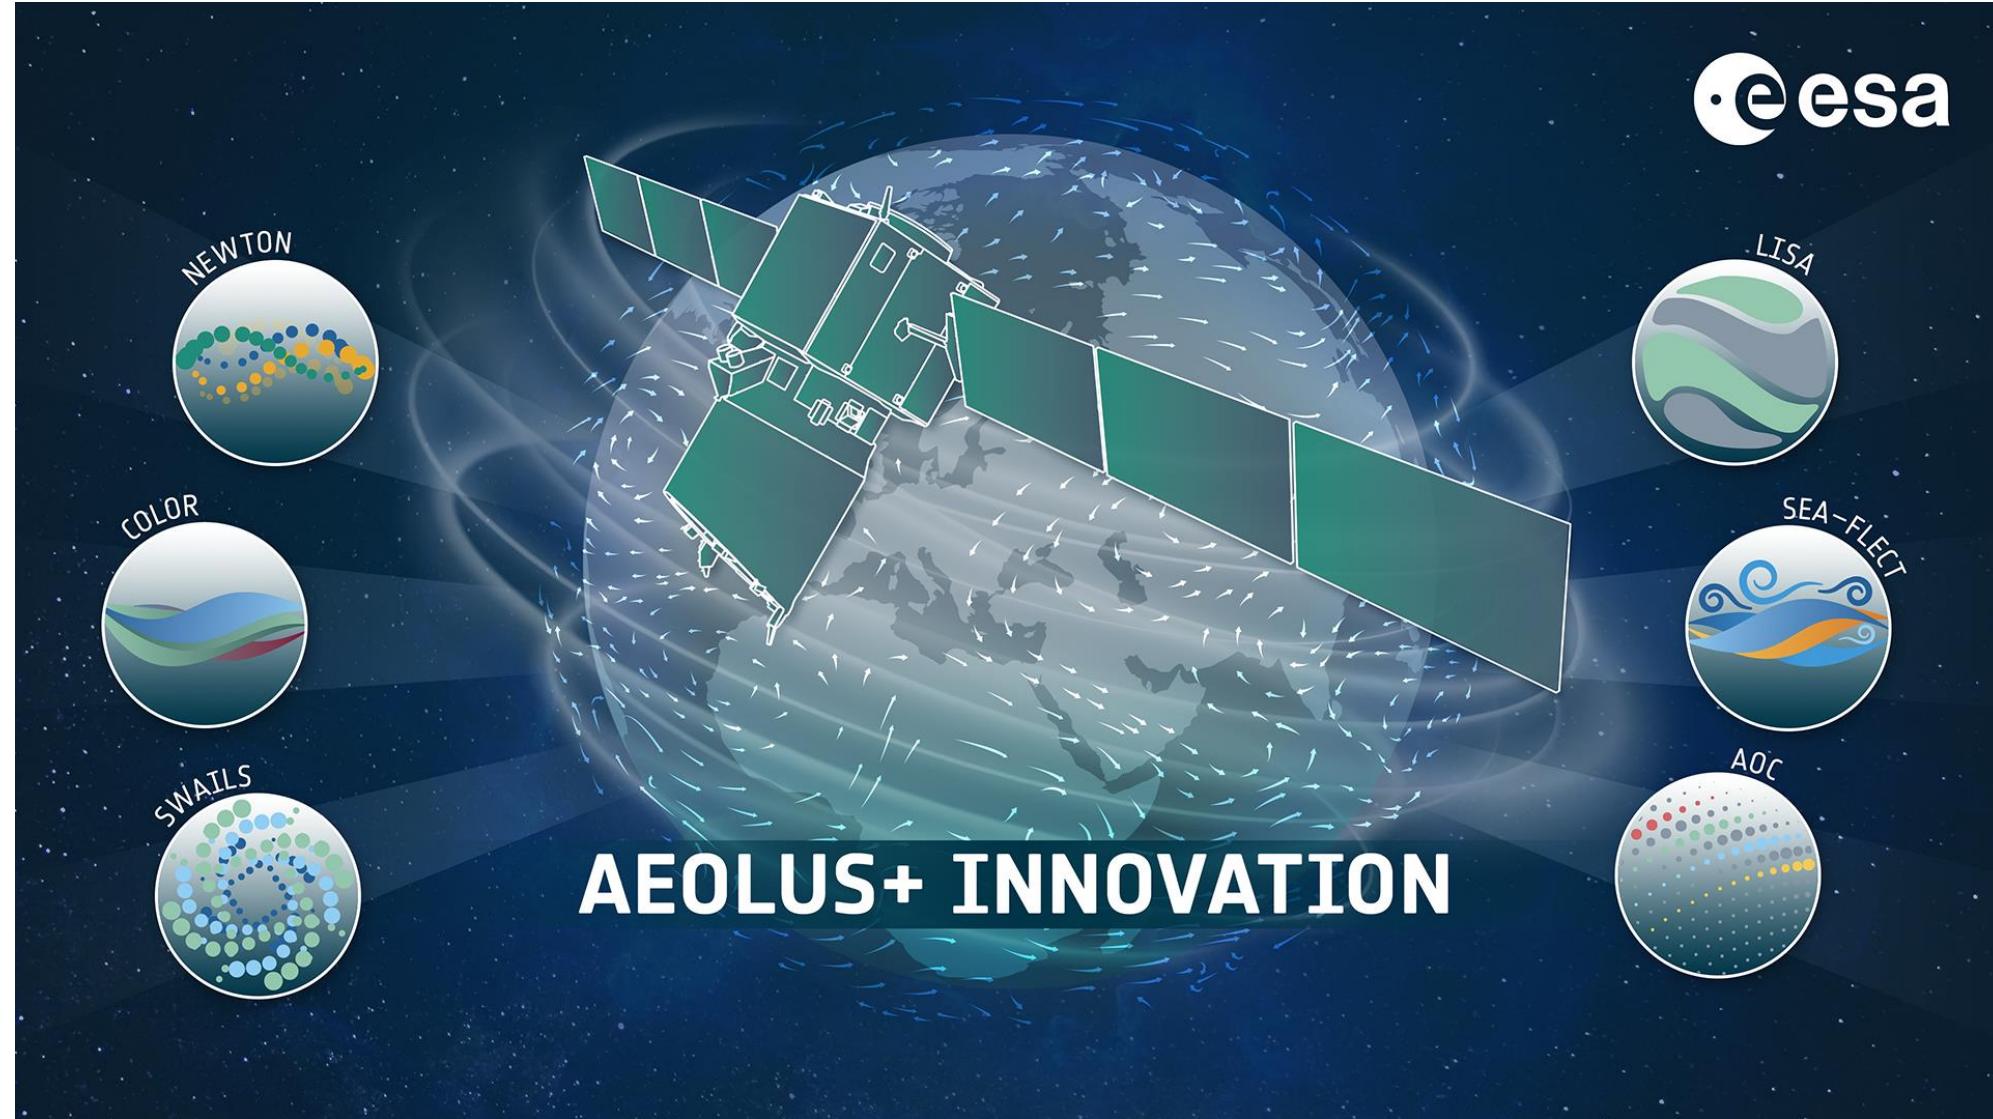

# Cluster Stiintific ESA: O abordare bottom-up

- **Agenda dezvoltata pe baza comunicarii continue cu comunitatea stiintifica;**
- **Promovarea activitatilor comunitatilor pentru definirea unui scop comun si unui tel ambitios;**
- **Promovarea parteneriatelor interdisciplinare intre diferite proiecte si tematici;**
- **Exploatarea pe deplin a misiunilor satelitare;**

# Aeolus+ Innovation

10

→ THE EUROPEAN SPACE AGENCY

## Definitie

- Program de finantare la initiativa SM pentru promovarea noilor idei din partea comunitatii;

## Obiective

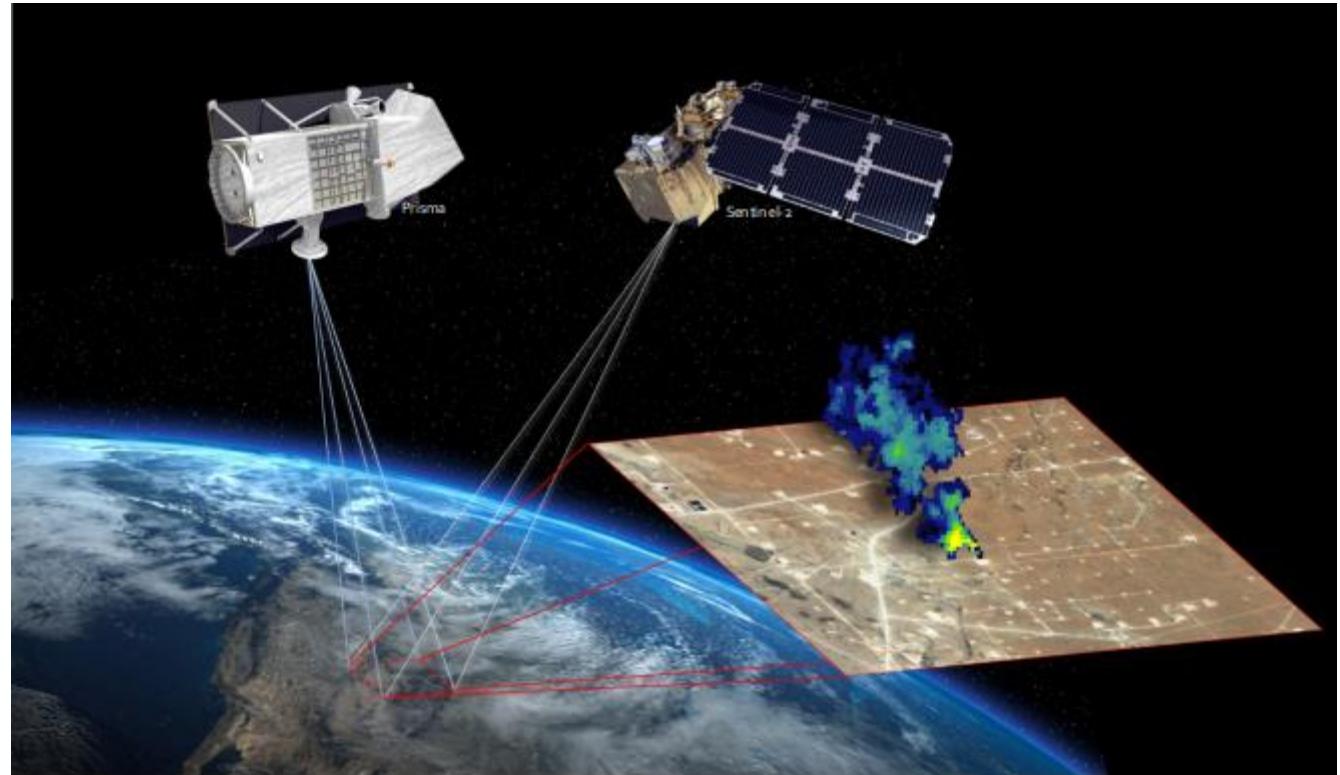

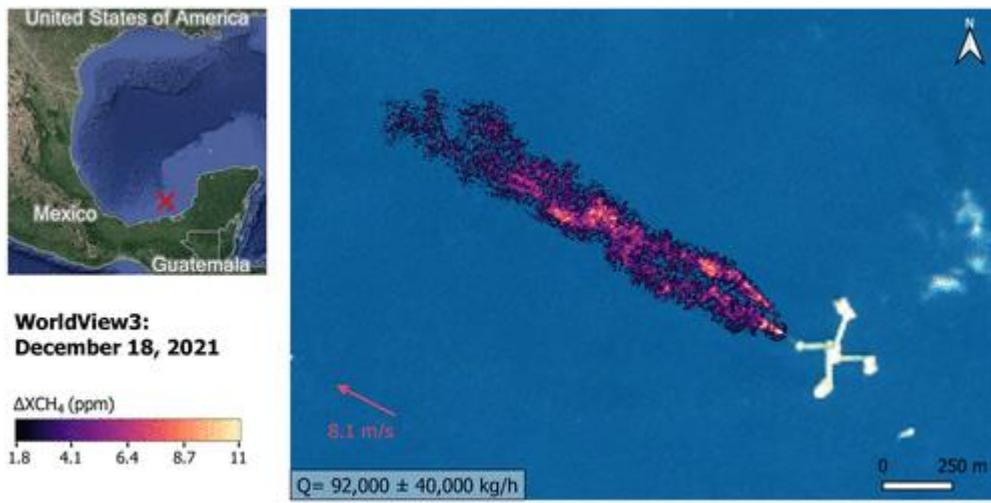

- Verificarea rapida a unui concept nou folosind date EO;
- Exploatarea la maximum a datelor satelitare;
- Toate elementele din FutureEO (stiinta, aplicatii, competitivitate industriala, inovare digitala, initiative regionale)

## Aspecte financiare

- Proiecte conventionale – max 200k Euro
- Verificare si testare rapida – max 75k Euro

ITT: <https://esastar-publication.sso.esa.int/ESATenderActions/details/6872>

- Detectia si cuantificarea surselor punctiforme de metan
- Dezvoltarea de algoritmi folosind imagini satelitare
- Sentinel – 2, PRISMA, WorldView
- Impact politic si stiintific
- Rezultate

phase 2023\*

## Cloud-Aerosols Interactions:

Foster enhanced observations and scientific assessment of clouds-aerosols interactions and impacts on the radiation and water cycles based on novel advances in aerosol retrievals, novel data products and data analysis exploiting existing and novel missions including EarthCARE and Multi Angular Polarimeter. This activity shall also seek to establish a large European coordinated action by exploiting synergies with relevant ground-based data and modelling efforts in Europe.

ITT 1-1.5MEuro range

## Horizon Europe

- HORIZON-CL5-2023-D1-01-04:  
Improved knowledge in cloud-aerosol interaction
  - 2 projects, 16MEuro
- HORIZON-CL5-2024-D1-01-01:  
Enhanced quantification and understanding of natural and anthropogenic methane emissions and sinks
  - 1 project, 15MEuro

## Global Methane Assessment:

Foster a community effort to enhance global CH<sub>4</sub> multi-mission retrievals from space with a major focus on quantifying and explaining recent CH<sub>4</sub> increases. Including development of advanced multi-sensor medium-resolution (e.g., S5P) and HR products addressing regional priority areas and point sources (e.g., landfills, agriculture). This activity shall also seek to establish a European coordinated action in synergy with planned EC and nationally funded projects.

ITT 1-1.5MEuro range

Catalog / (LPF) WIFT / **PRODUCT** Extended scientific HDO/H2O total column\_TROPOMI

**Extended scientific HDO/H2O total column\_TROPOMI**

ATMOSPHERE HDO (LPF) WIFT

**Description**

Extended scientific HDO/H2O total column data product from short-wave infrared (SWIR) measurements by the Tropospheric Monitoring Instrument (TROPOMI) including clear-sky and cloudy scenes. The retrieval employs a forward model which accounts for scattering, and the algorithm infers the trace gas column information, surface properties, and effective cloud parameters from the observations. Compared to the previous clear-sky-only data product, coverage is greatly enhanced by including scenes over low clouds, particularly enabling data over oceans as the albedo of water in the SWIR spectral range is too low to retrieve under cloud-free conditions. The new dataset is validated against co-located ground-based Fourier transform infrared (FTIR) observations by the Total Carbon Column Observing Network (TCCON). TCCON data are available from <https://doi.org/10.14291/TCCON/GGG2014> (Total Carbon Column Observing Network Team, 2017). MUSICA data are available from <https://ftp.cpc.ncep.noaa.gov/nadac/MUSICA/>, data until 2014 are also available from <https://doi.org/10.5281/zenodo.48902>. Aircraft profiles from the WISPER instrument from the ORACLES 2018 campaign are available from <https://doi.org/10.5281/zenodo.5748368>.
