Action
2023

Timisoara Startups started in 2014 as an aggregator of startups & community members.

In 2022, the platform got upgraded to become the go-to place for entrepreneurs in terms of resources, and a database of startups & community members.

Formation

Validation

Growth

PROGRAMS (1)

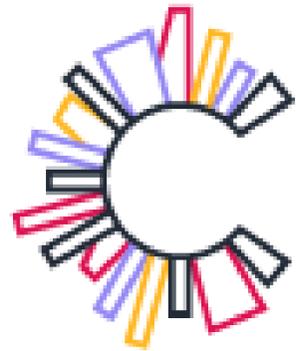

Startup Weekend brings networking, accelerated mentoring to professionals in order to facilitate building rapid MVPs.

Supporting startups navigates in between events, facilitation of networking, mentoring, and support services. We do this in a mix of the Learn, Build and Share Association and Cowork Timisoara SRL.

The coworking space creates a HUB to connect with like-minded people. You'll always find feedback, connections and support as a startup founder.

www.coworktimisoara.com

Timisoara Startups Meetup is a recurrent meeting hub for aspiring & existing entrepreneurs and also professionals. The meetup tackles topics of interest like Accounting & Financing, Fundraising, and debates of various struggles entrepreneurs have.

With **PROW** we bring innovation in building digital products closer to the tech community. We believe that a shift in mindset is imminent and Prow can enable this. www.prow.ro

PROGRAMS (2)

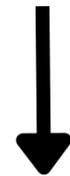

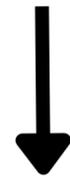

We've joined forces with **Innovation Labs** to deliver pre-acceleration to teams on a regional scale (Timisoara, Oradea, Arad, Resita). InnoLabs is a 5 month pre-acceleration program. www.innovationlabs.ro

With **Startup Survivor** we bring education using the Lean Startup methodology to students & alumni. SS is an intensive 3 week bootcamp. www.startupsurvivor.co
